

ART IN PUBLIC PLACES

ArtBoxes

The Mill Valley Arts Commission's Art in Public Places program is designed to bring the power and delight of art into our everyday experiences of our natural environment through the transformation of ordinary objects – the utility box, the park bench, the mailbox, the ping pong table, etc.

This Public Art Program, Art in Public Places, includes five program elements; one of which is ArtBox; the aim of this project is to highlight local artists within our community and, in doing so, brighten up the streets, beautifying ugly utility boxes and deterring vandalism.

Artist Information:
